Who Should Attend:

- Fire Services
- Emergency Medical Services
- Governmental Administrative
- HazMat
- Law Enforcement
- Public Health
- Public Works
- Emergency Management
- Private Sector and Military

Course Description: This 4.5 hour workshop provides a detailed introduction to emergency response supervisors and mid-to upper-level managers to the Incident Command System (ICS) forms used in the development of an Incident Action Plan (IAP). Participants will examine the primary forms used in an IAP, as well as supporting and other utility forms. In addition, participants will review the planning process and where, within that process, the forms are filled out and by whom. The workshop includes a practical application designed to instruct participants in the development of Specific, Measurable, Action-oriented, Realistic, and Time-based (SMART) control and management objectives.

Audience:

Participants should come from middle and senior management. This means emergency response managers, first-line supervisors, and administrators who will function as Incident Commanders (IC), Unified Command (UC) staff members, Emergency Management Coordinators, command and general staff members or EOC staff members.

**Course Delivery: National Emergency Response & Rescue
Training Center, Texas Engineering Extension Service**

**Training is fully funded by a training grant Provided by the
Department of Homeland Security**

Course Maximum is 50 students
